The 19th Annual Children's Fishing Clinic

For the last 18 years, the Children's Fishing Clinic, (sponsored by the Rotary Club of Newport News & the Coastal Conservation Association in partnership with Newport News Parks, Recreation & Tourism), has invited 250 at risk children in the community to attend a fun filled day of education and fishing at the James River Fishing Pier.

The children start their day collecting their event t-shirt and hat, assembling their groups and then visit several booths to learn about local sea life. They meet the local divers and learn about their jobs and gear. Then, after hands-on fishing and safety instruction they are issued their very own rod and reel, which they keep. They head out to the pier, where they collect bait & enjoy an afternoon of supervised fishing, often with the thrill of catching their very first fish! The day wraps up with a cook-out lunch where they swap fishing stories.

This event is made possible by the continued donations of numerous sponsors, countless volunteers, many who return year after year, and a common interest to give back to the community and provide a unique experience for these children. We would appreciate your support thru volunteering or sponsorship, so that we may continue this tradition for many years to come. Thank you for making a difference for these children and your community!

Volunteer!
